**Film: "DETROIT - BEYOND THE MOTOR CITY"** (80 minutes, Aaron Wolf, 2008)

Beyond the Motor City shines a spotlight on one of our country's most critical issues: America's decaying and neglected infrastructure and examines how Detroit, a grim symbol of America's diminishing status in the world, may come to represent the future of transportation and progress in this country. This documentary reveals that over the last 30 years, much of the world has left Detroit—and America—behind, choosing faster, cleaner, more modern transportation.

In a journey that takes us into the neighborhoods of Detroit and then beyond to Spain, California, and our nation's capital, Beyond the Motor City urges us to ask how a symbol of America's urban decay might transform itself into a model of urban revitalization. Can we finally push America's transit system into the 21st century?

**FRIDAY JUNE 25, 2010, 7-9:30 PM**

**Film: "BIGGER, STRONGER, FASTER"** (105 MIN, Chris Bell, 2008)

In America, we define ourselves in the superlative: we are the biggest, strongest, fastest country in the world. We reward speed, size and above all else: winning – at sport, at business and at war. Metaphorically we are a nation on steroids. Is it any wonder that so many of our heroes are on performance enhancing drugs? Blending comedy and pathos, Bigger, Stronger, Faster is a collision of pop culture and first-person narrative, with a diverse cast including US Congressmen, professional athletes, medical experts and everyday gym rats. (Event is FREE and open to the public! ...but Donations are kindly accepted).
