Film: "HAITI: KILLING THE DREAM" (52 min, Babeth, Katherine Kean, Hart Perry, & Rudy Stern, 1993)

Also featured will be a recent segment from **Democracy Now!** that showcases the film and discusses the current situation. The film starts with a background on Haiti's tragic history from the original Slave uprising in 1791 and focuses on the election of President Jean Bertrand Aristide and subsequent military coup of September 30, 1991 under suspicion of U.S. involvement. The program is narrated by Ossie Davis and along with local scenery and music includes interviews with the exiled Aristide, his cabinet, dissident clergy, underground resistance leaders, U.S. State Department officials, and a cross-section of the Haitian people.

(Event is FREE and open to the public! ...but Donations are kindly accepted).

FRIDAY APRIL 2, 2010, 7-9:30 PM

Film: "SHOVELING WATER: WAR ON DRUGS, WAR ON PEOPLE" (24 min, WFP, 2009)

With Regional Organizer, Colette Cosner from Witness for Peace, and a Report Back From Recent Colombia Delegations.

SHOVELING WATER is a journey to the heart of coca country in Colombia where U.S. tax dollars have financed chemical spraying of the Amazon for the past nine years in the 'War On Drugs'.

Hear first hand testimony from people on the ground about the impacts and learn new ideas about how to solve this deadly problem. www.witnessforpeace.org/northwest

PLUS A SHORT FEATURE (13 min) examining extrajudicial killings at the hands of the U.S.-funded Colombian military. Since 2000, the U.S. government has provided nearly \$5 billion in military and police funding to Colombia. Despite claims of an improved human rights record, thousands of civilians have been killed by this U.S.-funded military in recent years. Typical of human rights abuses in Colombia, there are astoundingly high rates of impunity for these killings.

Join us for a discussion with WFP on the real story in Colombia.

(Event is FREE and open to the public! ...but Donations are kindly accepted).
