FRIDAY SEPTEMBER 24, 2010, 7-9:30 PM

Film: "GASLAND" (STILL TO BE CONFIRMED – CHECK WEBSITE) (103 min, Josh Fox, 2010)

The largest domestic natural gas drilling boom in history has swept across the United States. The Halliburton-developed drilling technology of "fracking" or hydraulic fracturing has unlocked a "Saudi Arabia of natural gas" just beneath us. But is fracking safe? When filmmaker Josh Fox is asked to lease his land for drilling, he embarks on a cross-country odyssey uncovering a trail of secrets, lies and contamination. A recently drilled nearby Pennsylvania town reports that residents are able to light their drinking water on fire. This is just one of the many absurd and astonishing revelations of a new country called GASLAND. Part verite travelogue, part expose, part mystery, part bluegrass banjo meltdown, part showdown.

FRIDAY OCTOBER 1, 2010, 7-9:30 PM

Film: "WHO DOES SHE THINK SHE IS?" (73 min, Pamela Tanner Boll & Nancy Kennedy, 2008)

Can women follow their artistic instincts and still function as wives and mothers? WHO DOES SHE THINK SHE IS?, is a riveting documentary by Academy Award-winning producer Pamela Tanner Boll (Born Into Brothels). It features five bold women who navigate some of the most problematic intersections of our time: parenting and creativity, partnering and independence, economics and art. Through their lives Tanner Boll explores what it means to nurture children and family, and keep the creative fire burning within. More info: www.whodoesshethinksheis.net

FRIDAY OCTOBER 8, 2010, 7-9:30 PM

Film: "AGE OF STUPID - Why Didn't We Save Ourselves When We Had the Chance?"

(92 min, Franny Armstrong, 2009) A film about the future we could face if we don't make changes- and quickly. This one is not for the fainthearted, because the combination of documentary and a fictionalized "future" as told by the narrator carries double the impact of a purely factual film. That said, the message is conveyed creatively and clearly. Pete Postelwaite is entirely believable as the weary archivist of the future, who is still in disbelief at the facts available to humanity in 2010- and how easy it was for even the most well-intentioned of us to ignore them at times.

(Event is FREE and open to the public! ...but Donations are kindly accepted).

(More Info Coming On This Event)

Since 1998 a brutal war has been raging in the Democratic Republic of Congo (DRC). Over 4 million people have died. And there are the uncountable casualties: the many tens of thousands of women and girls who have been systematically kidnapped, raped, mutilated and tortured by soldiers from both foreign militias and the Congolese army.

The world knows nothing of these women. Their stories have never been told. They suffer and die in silence. In THE GREATEST SILENCE these brave women finally speak. Sundance Film Festival, Special Jury Prize: Documentary
