WIKIREBELS - THE DOCUMENTARY produced by Swedish Television, gets under the surface of the organization to understand the driving forces and the ideology behind the tremendous impact that WIKILEAKS has made.

“Even people within Wikileaks have wondered why SVT got this access when other media hardly managed to reach them by telephone. I think one reason for that may be that we were one of the few producers that was genuinely interested in what they were actually trying to accomplish.” - Bosse Lindqvist and Jesper Huor (SVT).
